

Dr. Brownstein's Blog on Supplement Protocol

There Is Still Hope Out There- Christopher: "Four Days Ago I Felt Like I Was Staring At Inevitable Death."

".....Four days ago I felt like I was staring at inevitable death....."

This is the statement made by Dr Ng's patient, Christopher, who had tested positive for COVID-19. This is one of the worst cases we have seen at CHM. Christopher was sick for nearly 2 weeks, with a high fever, body aches, chills, nausea, and diarrhea. He even took Tylenol and Ibuprofen, with hopes that it would give him some relief from the fever and pain. This only **worsened** his condition. He found taking ibuprofen really started his decline which is what I have been writing about.

Thankfully, Christopher is recovering after 4 days of a supplement protocol to strengthened his immune system administered by Dr Ng. *This pandemic is real, but so are the results of natural therapies.* Watch Christopher's testimonial on how he recovered from COVID-19.
