

# Dr. Brownstein's Blog on Brandon's Testimonial

## **There is Still Hope Out There- Brandon: "I Didn't Really Break My 102 Fever for 4 or 5 Days"**

*"I didn't really break my (102) fever for 4 or 5 days....."*

Check out my interview with COVID patient, Brandon, who is a paramedic. He experienced fatigue, body aches, high fever, followed by a shortness of breath. Watch Brandon's testimonial on his progress after administering to himself a Super C IV, followed by supplementation with high doses of vitamins A, C, D & iodine.

There is hope out there!

To All Our Health!

David Brownstein, MD is a conventionally trained Board-Certified Family Physician with the additional overlay of holistic principles.

While Dr. Brownstein does not claim to have a cure for any illness, he does believe that we can enhance the individual's immune system by supporting the 'host' & the terrain of the host. The human body is well designed and the immune system, when given the proper support, can optimally function.
