Yager Bomb™ QuadDemic™ First Aid Protocol

For People who don't have time to be sick.

FIRST AID

Individuals with blood oxygen saturation levels above 78% generally RECOVER within 14 to 96 hours.

Quantities listed below are EXTREME!

Quantities below are for FIRSTAID PURPOSES ONLY

1) avoid NSAIDs, ibuprofen, sodium naproxen and aspirin
2) use blankets to sweat out fever as the body's natural defense
3) consume 88 oz Distilled Water SATURATED with OZONE 110 µg\ml
4) Nebulize 4 times per day with a (PRESCRIPTION) cocktail of ((5 cc 7% Saline + 1 cc 3% Food Grade Hydrogen Peroxide) + 2 drops 2% Lugol's Iodine)
5) consume Melatonin 300mg, D_3 50,000IU + Vitamin K_2 1800mcg, Zinc 120mg, and 4 Capsules of B Complex with Folate daily
6) consume 30,000mg of non-corn Vitamin C dissolved in Water

24 grams to 60 grams of Vitamin C is necessary to FLUSH Virus from your system and will cause dehydration. Consume Saline Water for 4 days.

2 drops of 2% Lugol's iodine is a Scientific Measurement and iodine toxicity at that level is a myth.

DO NOT PERFORM THIS PROTOCOL FOR MORE THAN 4 DAYS!
