

I HAVE COVID-19 DELTA VARIANT, WHAT SHOULD I DO?

September 19th, 2021

COVID-19 SHOULD BE A WAKEUP CALL FOR ALL OF US.

COVID-19, Brazilian, Delta and Mu should be a wakeup call.
The carnage they have caused did not have to occur.
Moving forward let us make sure nothing like this happens again.
You can rest assured that other viruses will be around in the future.
The way to combat these pathogens resides within us
– a strong, well-supported immune system.

Please read all the way to the bottom to where it is obvious that this is NOT like Polio.

DISCLAIMER:

**THIS INFORMATION IS INTENDED TO BE USED AS A CONVERSATION GUIDE
BETWEEN YOU AND A QUALIFIED MEDICAL PROFESSIONAL.**

DISCLAIMER:

**STEVEN YAGER, STEVENYAGER.ORG,
AND STEVEN YAGER'S AFFILIATES AND ASSOCIATES
DO NOT RECEIVE FINANCIAL COMPENSATION
FOR ANY MATERIAL AND/OR LINKS PRESENTED ON THIS SITE.
WE MERELY WANT TO PUT A STOP TO ALL
THE NEEDLESS DEATHS OCCURRING AROUND THE WORLD.**

Please take COVID-19 and it's Coronavirinae Variants SERIOUSLY because they can cause STROKES in otherwise HEALTHY People !!

There can never be a safe vaccine for this.

COVID-19 and it's Coronavirinae Variants need to be taken SERIOUSLY.

**MANY WHO HAVE DIED FROM COVID-19
OR SUFFERED A COVID-19 INDUCED STROKE,
HAVE AT ONE POINT IN TIME,
BEGAN FEELING BETTER FOR A DAY OR TWO.
JUST WHEN THEY THINK THEY MAY BE
ON THE ROAD TO FULL RECOVERY;
THEY COLLAPSE.**

Your Pulse-Oximeter reading can go from 99% to 66% in as quickly as two days.
If your Pulse-Ox reading is 78% or lower your organs have already begun to experience serious damage.
At 66% your heart rhythms become seriously erratic.
Anything below 94% requires Medical Attention.

This is an insidious virus that is 100% treatable
if you take it seriously and get full scale First Aid Treatment immediately.
IMMEDIATELY.

COVID-19 and it's Coronavirinae Variants can cause strokes in people ages 30 – 116.
Please. Take this seriously.

Many people don't get well once it's "gone,"
they have long-term problems.

This is NOT the "flu".

CoronaVirus Variants can cause strokes,
permanent lung damage,
permanent heart, liver & kidney damage.

**WHEN YOU HEAR SOMEONE SAY,
"IT'S WASN'T ALL THAT BAD, HOWEVER,
IT'S BEEN MONTHS AND I STILL DON'T HAVE ALL MY ENERGY BACK."
THIS MEANS THE VIRUS IS STILL
WREAKING HAVOC ON YOU AT
YOUR CELLULAR LEVEL.
WITHOUT THE PROPER TREATMENT,
THE DAMAGE TO YOUR HEART, LIVER, LUNGS
AND KIDNEYS COULD BE PERMANENT.**

The blood clotting can kill you and if it doesn't, it can last for many months,
HOWEVER, IF IT KILLS YOU, IT MAY LAST LONGER*
(*Medical Observation)

GOOD NEWS:

THE PEOPLE WHO HAVE PERFORMED THE PROVIDED FIRST AID TREATMENT BEFORE THEIR PULSE-OX READINGS GO BELOW 78% HAVE FULLY RECOVERED IN 14 TO 96 HOURS.

The good news is, 100% treatable means 100% treatable.

No one should have died from COVID-19.

No one.

You absolutely, positively, should perform this First Aid Treatment and kill the Bug once and for all.

You could safely be non-contagious and enjoying the company of Friends and Family in 96 hours.

When I personally experienced Full Viral Load of COVID-19 Variant

I should have been able to beat it in 24 hours.

However, I had it for 4 days.

I struggled because I didn't know the humidity in my house was only 15%, so I would wake up each Morning and my throat, sinuses and mouth were "on fire*."

(*...that's a Medical Term). The humidity in your bedroom should be above 30%.

I did steps 1 – 6 of the First Aid Protocol over and over for 4 days.

Fortunately, 4 Ultrasonic Humidifiers were delivered to my house on Day Three.

I used distilled water in the machines to avoid "white dust."

I fully recovered by Day Four.

I have been assisting people all around the world and

the most distinctive difference between COVID-19 and the "flu" is that COVID-19:

- creates a rash that looks like poison ivy in teenagers and in people in their 20s
- causes STROKES in people in their 30s, 40s & 50s
- causes serious Opportunistic Bacterial Pneumonia and STROKES in people 60+.

COVID-19 (all Variants), the flu, and the common cold are easily and totally treatable with this First Aid Protocol.

If everyone in this world were to have exercised this First Aid Protocol starting in January of 2020, we could have all been in Church for Easter of 2020.

There was and is no reason to shut down the planet causing a great increase in Suicides, Substance Abuse Deaths, and Domestic Violence Deaths.

For the most part Sweden attacked Coronavirus correctly.

Again;

You absolutely, positively, should perform this First Aid Protocol
WITH THE HELP OF A QUALIFIED MEDICAL PROFESSIONAL
and kill the Bug once and for all.

If you want a FULL Recovery in 96 hours or less, please continue reading.

First and Most Important:

What is your Blood Oxygen Percentage?

My Mother & I text our Pulse-Ox readings to each other every day.

**These texts are calming for her
and give her a sense of connection
and a sense of peace.**

**The readings are generally between 96% – 99%.
93% or lower sets off an alarm.**

Everyone should have a Pulse-Oximeter:

Please click on images for source of Pulse Oximeters.
Same Manufacturer offered under different Brand names.

Second:

The Humidity in the Patients Bedroom needs to be between 35% – 50%.

VICKS EASYFILL COOL MIST HUMIDIFIER

Distilled Water Only:

WARM STEAM VAPORIZER

Tap Water Only:

**DO NOT PERFORM THE
COVID FIRST AID PROTOCOL
FOR MORE THAN 4 DAYS**

**DRINK 88 OZ OF OZONE SATURATED WATER!
DRINK 88 OZ OF SALTED WATER!
! PER DAY !**

**BE CAREFUL NOT TO
DEplete YOUR POTASSIUM.
BANANAS ARE
A GOOD SOURCE
FOR
POTASSIUM.**

**TO CONTINUE NEBULIZING AFTER 4 DAYS,
PLEASE REFER TO [MY PREVENTION PROTOCOL](#).**

CORONAVIRUS, COLD & FLU FIRST AID KIT

(Every Image on PDF has a Researched Link to the Exact Item)

(Steven Yager & Yager & Associates receives NO compensation for Link Usage or Product Purchases)

COVID-19 Variants, Cold & Flu

Some quantities listed below are **EXTREME**
and should be utilized for **FIRST AID PURPOSES ONLY.**

For First Aid purposes, every Person

with blood oxygen saturation levels above 80% and have:

- 1) avoided ibuprofen,
- 2) used blankets to sweat out fever as the body's natural defense
- 3) consumed Vitamins A, **1,250 mcg** D₃, & **120 mg** of Zinc daily
AND **100 mg** of B₁, B₂, B₃, B₅, B₆, B₁₂, & Folate daily
- 4) consumed **40,000 mg** of Vitamin C dissolved in Water
- 5) consumed **88 Oz** of Ozone Saturated Distilled Water daily
- 6) been treated 3 times a day with a **nebulizer** cocktail of
(5cc 0.9% saline solution \ 1cc food grade hydrogen peroxide (3%)) + 2 drops 2% Lugol's Iodine

RECOVERED in 24 to 96 hours.

100% of these People have Recovered.

2 drops of 2% Lugol's iodine is a Scientific Measurement and iodine toxicity at that level is a myth.

This has saved lives around the world. If this can save the life of just
one more person, isn't it worth sharing with someone you love?

THE ABSOLUTES FOR “FIRST AID” TREATMENT FOR ADULTS ARE:

- 1) 40 GRAMS OF PURE VITAMIN C DISSOLVED IN WATER**
- 2) NEBULIZING 3 TIMES PER DAY**
- 3) FIRING OFF A GENTLE CANNON IN THE outhouse**
- 4) 1,250 MCG OF VITAMIN D3**
- 5) 100 MG OF VITAMIN B COMPLEX**
- 6) 120 MG OF ZINC**
- 7) 500 MG OF QUERCETIN**

**Start with 25,000 mg (25 grams)
of Vitamin C Powder dissolved in Water:
That is a LOT of “C”.**

Make sure there are no Buffers, no Fillers and no Excipients!

I would give people 25,000 mg (25 grams) of Vitamin C merely as a test.
No healthy human being can consume 25 grams
of pure Vitamin C without
“firing off a gentle cannon in the outhouse*”

(*Medical Term)

If you DO fire off a gentle cannon in the OutHouse,
you probably don’t have any of the COVIDs or COVID Variants.

If you consume 25,000 mg (25 grams) of Vitamin C
and you don’t “pee” out your donkey,*
YOU ARE VERY SICK

and your body is USING ALL
of that Vitamin C to COMBAT a VIRUS.

At that point,

if your body IS using all of that Vitamin C to COMBAT a VIRUS
and you don’t fire off a gentle cannon in the outhouse,*

one should consume 5,000 mg (5 grams) to 15,000 mg (15 grams) more of Vitamin C,
depending on your body weight and level of infection.

When this happened to me, I increased
to 40 grams of Vitamin C and prayed*.
(*Medical Terms)

When you stir 40,000 mg (40 grams) of Vitamin C powder into water and drink it. You will experience a non-violent diarrhea that flushes the bug out of your system. Kinda' like "peeing" out your behind*.
(* that's a Medical Term)
You must experience diarrhea or it won't work.
Doctors call it, "Reaching bowel tolerance."

My very special Aunt said she would rather die than consume that much Vitamin C and intentionally create 2 hours of gentle diarrhea.

...she's now dead.
...from COVID-19.

If you are going to be like my very special Aunt, stop reading now.
Crawl off into a hole somewhere, suffer, and die.
JUST DON'T INVOLVE ME IN THE PROCESS.

If you want a FULL Recovery in 96 hours or less, please continue reading.

First,

Do NOT take Calcium BUFFERED Vitamin C.
It is the CALCIUM that causes Kidney Stones
NOT the Vitamin C.

I'm referring to a lame ass 10-year study performed on 23,000 males in Sweden.

They don't tell you in the study that the Vitamin C used was buffered with Calcium.

THEN they attempt to blame the 1% increase in the likelihood of getting Kidney Stones on the Vitamin C and leave the Calcium to be Blameless.

The body will use what it needs and then excretes the rest.

The safest way is to start with 10 Grams (10,000 mg).
Then do 1 gram per hour until *"bowel tolerance."
(*Firing off a Gentle Cannon in the Out House) (*peeing out your Donkey) (*both are Medical Terms)

However, I have found that people
do not like the taste and stop taking it
mid-way through
...and those people become the “Long Haulers”.

Me Personally, I give Clients 25 grams.
If they do not fire off a cannon,
I know they are very sick.
Then I give them 30 – 40 grams the next day,
depending on their weight.

If they DO fire of a cannon,
then that part of the protocol is complete.

No need to repeat that.
Otherwise, you risk dehydration.

(one new Client had already had her husband
in the outhouse every day
for a whole week before I met them)
(...not pretty.)

NEBULIZE WITH A SOLUTION OF:

5 CCS (5 ML) 0.9% SALINE SOLUTION

1 CCS (1 ML) 3% FOOD GRADE HYDROGEN PEROXIDE

2 DROPS 2% J CROW'S LUGOL'S IODINE

Inhale through your nose as deeply as you can and hold it for 4 seconds.

Then Exhale through your nose.

You will probably cough.

...a lot.

...and hard!

You may want to place both forearms firmly on a table or desk as to place as much of your body weight on your forearms as you can so you don't "blow out"* your back.

(* ..another Medical Term)

Have plenty of paper cups to cough into.

Nebulize until Metered Bowl is Empty.

**TO CONTINUE NEBULIZING AFTER 4 DAYS,
PLEASE REFER TO [MY PREVENTION PROTOCOL](#).**

QUIET DURABLE MACHINES

These are consistent nebulizer systems with quiet and reliable piston pumps.

They offers higher liter flows, shorter treatment times and lower sound levels than many other economy compressor nebulizers:

HOW TO NEBULIZE

[\(LEARN MORE\)](#)

NEBULIZER BOWL AND SINUS MASK

5 CCS 0.9% SALINE SOLUTION

1 CCS 3% FOOD GRADE HYDROGEN PEROXIDE

2 DROPS 2% LUGOL'S IODINE

MORE AMMUNITION

100 MG B-COMPLEX

50,000 IU OF D3

120 MG ZINC

500 MG QUERCETIN

Ozone SATURATED Steam Distilled Water

22 Ounces of Ozone Water 4 Times per Day

Dr Brownstein's latest book [Ozone The Miracle Therapy](#) is now available for purchase!

Medical ozone therapy is one of the most exciting therapies available. It has been widely used around the world for over 70 years. Ozone therapy can be an effective treatment for arthritis, autoimmune disorder, cancer, fatigue, fibromyalgia, and infections.

This book will provide you with the information you need to understand the healing effects of medical ozone therapy. See how ozone therapy helps to oxygenate the tissues of the body. In order to overcome illness and maintain health, it is important to ensure that the cells have an optimal supply of oxygen. Ozone therapy supplies the body's cells with oxygen. Medical ozone is a safe and effective way to promote health and treat many acute and chronic illnesses. The proper use of ozone should be taught in all medical schools.

OVER 30 CASE STUDIES!

OZONE:

The Miracle Therapy

Arthritis | Autoimmune Disease | Cancer | Fatigue | Infections

David Brownstein, M.D.

USED AS A CONVERSATION GUIDE BETWEEN
YOU AND A QUALIFIED MEDICAL PROFESSIONAL.**

***DISCLAIMER IV**

NONE OF THIS IS APPROVED BY THE FDA.

***RANT**

If anyone has a problem with the information provided in this Post, please understand: There is a very good chance that my Team has spent \$638,000.00 more on this research than you have.

But, go ahead and continue to blindly kill people with your great wisdom allowing millions to die while waiting for a miracle “vaccine” for a virus that is totally treatable if you seek treatment before your Pulse-Ox reading gets below 78%.

You may, instead, want to consider providing everyone you love with a Pulse-Oximeter.
...END OF RANT.

Special Note:

We have recently learned of the importance of adding Melatonin to the arsenal when battling COVID-19 and the COVID Variants.

Day 1: upon first onset of symptoms, increase night time dosage to at least **10 mg**. Immediately commence oral ascorbic acid protocols described in Revised 2021 Guidelines for AA/VIT C. If symptoms do not subside or improve in 24 hours, maintain AA dosage per 2021 guidelines and increase melatonin dosage as follows:

Day 2: Total 24-hour dose is **30 mg**. **20 mg** taken at night; remainder **10 mg** is divided into 5 doses during day time, **2 mg** each dose. Maintain Day 2 dose if there is improvement. If condition deteriorates within 24 hours, proceed to Day 3 dosage.

Day 3: Total 24-hour dose is **75 mg**. **50 mg** taken at night; remainder **25 mg** is divided into 5 doses during day time, **5 mg** each dose. Maintain Day 3 dose if there is improvement. If condition deteriorates within 24 hours, proceed to Day 4 dosage.

Day 4: Total 24-hour dose is **110 mg**. **80 mg** taken at night (can be divided into 2 doses); remainder **30 mg** is divided into 6 doses during day time, **5 mg** each dose. Maintain this dose until signs of recovery, then reduce dosage every 3 days in reverse order. Stay at Day 2 dosage until you are totally clear of all symptoms (see Recovery Section below).

CORONAVIRUS AND THE PEOPLE YOU LOVE

Why do we need a vaccine for something that is 100% treatable?

COVID-19 is 100% treatable if treatment is received before your blood oxygen level goes below 78%.

Please read all the way down to where Coronavirus is shown to be nothing like Polio.

We needed to find an Effective Treatment.

My Mother, Brother and Sister are “immunocompromised”.
So, this is personal.

We need Herd Immunity.

Let the Healthy create Anti-Bodies.

Socially distance the Immunocompromised and Elderly.

Yes, my TEAM has actually gone into the homes of people who were COVID-19 positive.

These deathly ill people were so afraid they may be forced to die alone on a ventilator in a hospital, they refused to go to the Emergency Room.

Corporate Media has people scared senseless.

The overall challenge

is that the treatment for COVID-19 is actually a process instead of a pill.

The process cannot be patented.

No Patent = No Profit.

Medicine is big business and they do not like competitors.

Especially competitors who have products that offer little or no profit.

The majority of the ingredients in the COVID-19 process can be obtained by anyone without a *script.

And, NO, elderberry and essential oils are NOT on the list.

The Doctors, although censored by the FTC, were allowed to continue to treat patients as long as they did not charge patients for their services and the Doctors refrain from making public statements about our treatment protocols of MASSIVE amounts of Vitamins A, B1, B2, Niacin, B6, Folate, Biotin, Pantothenic Acid, & B12 and D3, as well as EXTREME Intravenous VITAMIN C, OZONE INJECTIONS and IODINE & SALINE NEBULIZATION to support the immune system with respect to Coronavirus.

Every single patient with blood oxygen saturation levels of 78% or higher experienced complete recovery.

Over 200 patients for one Doctor alone.

(Blood Oxygen Saturation levels between 95% and 100% are considered normal)

I personally would not have believed in some of the remedy process

if I hadn't seen it myself.

The CDC is not a Government Organization.

The Food & Drug Administration uses the FTC to harass Medical Doctors who challenge the CDC.

Just ask Barry Marshall and Robin Warren what it was like fighting the American Medical Association with their findings on peptic ulcer disease. They nearly lost their licenses in 1984.

They endured and in 2005 won the Nobel Prize for the same research.

Unless the process is proven with a Double-Blind Study, the process is considered Anecdotal Evidence.

Doctors are not permitted to “advertise” (hence FTC) a process that has not been proven through a Double-Blind Study.

Ozone is generally administered as intravenous solutions of ozone or intramuscular ozone; however, there are cases where people have orally consumed OZONE SATURATED distilled water.

Ozone can be used as a Disinfectant.
...such as in a swimming pool.

Ozone (O₃) is a very effective disinfection agent and can be used in swimming pools to replace chlorine and bromine. Ozone will even breakdown already formed unwanted chlorinated byproducts. This reduces problems with eye irritation and respiratory problems.

Unlike Clorox and Lysol, Ozone is quite beneficial when injected intramuscular.

I am sharing this with everyone because COVID-19 is not the last Coronavirus we are going to see like this. There will be more variants of the Coronavirus. China is a Giant CessPool for Viruses.

There will be no effective vaccine.
There are effective treatments.
...and they are inexpensive.

Here is why we all owe it to EACH other to begin boosting our immune systems now.

Coronavirinae (called that because of their Protein Spikes) are enveloped, single-stranded RNA viruses, which means that their genome consists of a strand of RNA (rather than DNA) and that each viral particle is wrapped in a protein “envelope.”

While the COVID-19 is extremely contagious, it is easily destroyed.
The COVID-19 Envelope is so delicate it can be destroyed with simple soap and water.
It is easily destroyed with something as benign as Armor-All Leather Cleaner.
My BMW is quite grateful for that.

ALL Viruses do basically the same thing:
invade a cell and co-opt some of its components to make many copies of themselves,
which then infect other cells.
But RNA replication typically lacks the error-correction mechanisms cells employ when
copying DNA, so RNA viruses make mistakes during replication.

Coronavirinae have the longest genomes of any RNA virus
— consisting of 30,000 letters, or bases — and the more material a pathogen copies,
the more opportunity there is for mistakes (mutations).
These viruses mutate very rapidly.
Some of these mutations may confer new properties,
such as the ability to infect new cell types—or even new species.

There will be no effective vaccine.

The ineffective vaccine that WILL be produced
will harm or kill many of the people we are attempting to save.

Polio, a virus in the family of picornavirus, has an 8 kilobase (Kb) single stranded, positive
sense, RNA genome.
Pico-rna-virus(es) are named for their small (“pico” + “RNA” = picorna) size.

Simply stated The Less Material A Pathogen Copies, The Less Opportunity There Is For
Mistakes (Mutations).
Polio has basically three variants (mutations).

The COVID-19 is a virus in the Coronavirinae subfamily
which have large single-stranded positive-sense RNA genomes ranging between 26
kilobase and 32 kilobase in length.

Genetic inactivation of ExoN activity in engineered 2019-nCoV,
now referred to as SARS-CoV-2
(severe acute respiratory syndrome coronavirus 2)
genomes by alanine substitution at conserved DE-D-D active site residues results
in Viable Mutants That Demonstrate 15-Fold To 20-Fold Increases In Mutation Rates,
Up To 18 Times Greater Than Those Tolerated For Fidelity Mutants Of Other RNA Viruses
Such As The Polio Virus.

That is why there is an effective vaccine for Polio
...and there will NEVER be an effective vaccine for the majority of the Coronavirinae, past or future.

Let the Healthy create Anti-Bodies.
Socially distance the Immunocompromised
and Elderly temporarily until we have herd immunity.
THEN everyone should be hugging each other to share our antibodies.

There are over 600 Medical Doctors
who meet once a year to discuss their findings with their colleagues.
These MDs are focusing on Greatly Enhancing the Human Body's Natural Immune System.

Hopefully, people will demand that there are more of these "Holistic" Medical Doctors.

If this information helps just one more person, it will be worth every penny I invested.

Anyone who is interested in finding out more, please feel free to email me or call.
I can get you to accurate and useful information.

I am not selling anything, however, there is no altruism here.
My immune system depends on physically being with you
and yours depends on physically being with me.

It's as simple as that.

You have my permission to share this.

P.S. To find a Qualified Medical Doctor to EFFECTIVELY combat COVID-19 and other Virus

Google or DuckDuckGo exactly these words including the commas:

Vitamin C IV, Ozone IV, Nebulizer Medical Doctors near Me

COVID-19 Survival #101

Some quantities listed below are **EXTREME**
and should be utilized for **TREATMENT PURPOSES ONLY.**

Every Patient

with blood oxygen saturation levels above 78% and have:

- 1) avoided ibuprofen,
- 2) used blankets to sweat out fever as the body's natural defense
- 3) consumed Vitamins A, **1,250 mcg** D₃, & **120 mg** of Zinc daily
AND **100 mg** of B₁, B₂, B₃, B₅, B₆, B₁₂, & Folate daily
- 4) received **50,000 mg** of vitamin C intravenously daily
- 5) intravenous solutions of ozone or intramuscular ozone daily
- 6) been treated 3 times a day with a **nebulizer** cocktail of
(5cc 0.9% saline solution \ 1cc food grade hydrogen peroxide (3%)) + 2 drops 2% Lugol's Iodine

RECOVERED in 24 to 96 hours.

100% of these Patients have Recovered.

1 drop of 5% Lugol iodine is a Scientific Measurement and iodine toxicity at that level is a myth.

This has saved lives around the world. If this can save the life of just one more person, isn't it worth sharing with someone you love?

My Mother, who is 85, is safe because she knows COVID-19 is 100% treatable
as long as she seeks QUALIFIED Medical Assistance in the event her Blood Oxygen level goes below 90%.

My Mother, who is 85, is also safe because she drives her car without a mask.

This protocol has been used with great results by over 3,000 Medical Doctors throughout the World.

To keep those around me safe, I personally use the Nebulizer protocol as needed every day. I also utilize maintenance levels of **Timed-Released** versions of the Vitamins listed above twice a day. My Team also consumes **Ozone Saturated Distilled Water** several times a day. This information can easily flatten the curve. I am still COVID-19 Negative.

Please consider using a Pulse Oximeter to check the oxygen saturation in your blood. If your oxygen saturation becomes lower than 90%, you may want to consider seeking the attention of a qualified medical professional.

This information has already saved the lives of many around the world.

If this information can save the life of just one more person, isn't it worth sharing with someone you love?

Google exactly these words including the commas:

" Vitamin C IV, Ozone IV, Nebulizer Medical Doctors near Me " to find more natural, 100% effective treatments.

Have a blessed day!

COVID-19 Variants, Cold & Flu

Some quantities listed below are **EXTREME** and should be utilized for **FIRST AID PURPOSES ONLY**.

For First Aid purposes, every Person with blood oxygen saturation levels above 80% and have:

- 1) avoided ibuprofen,
- 2) used blankets to sweat out fever as the body's natural defense
- 3) consumed Vitamins A, **1,250 mcg D₃**, & **120 mg** of Zinc daily
AND 100 mg of B₁, B₂, B₃, B₅, B₆, B₁₂, & Folate daily
- 4) consumed **40,000 mg** of Vitamin C dissolved in Water
- 5) consumed **88 Oz** of Ozone Saturated Distilled Water daily
- 6) been treated 3 times a day with a **nebulizer** cocktail of
(5cc 0.9% saline solution \ 1cc food grade hydrogen peroxide (3%)) + 2 drops 2% Lugol's Iodine

RECOVERED in 24 to 96 hours.

100% of these People have Recovered.

2 drops of 2% Lugol's iodine is a Scientific Measurement and iodine toxicity at that level is a myth.

This has saved lives around the world. If this can save the life of just one more person, isn't it worth sharing with someone you love?

MY DAILY PROTOCOL FOR PREVENTION

**EASIER JOURNEY TO BETTER HEALTH
REDUCE LECTINS, ELIMINATE GLUTENINS & GLIADINS**
