

# The **Yes** List

Vegan

Feeding the good pro-biotic bugs to fill your body with bug love.

Your body effectively uses the love it needs and expels the rest.

This is why you can drink glasses of olive oil and not get fat.

Ask yourself every day, "What bugs am I feeding today?"

# The NO List

**Do not feed the bad bacteria!  
The bad bacteria excrete toxic feces  
that pass through your intestinal walls  
directly into your bloodstream.**

**Your body retains and harbors these toxins.**

**This is why small amounts such as a teaspoon of canola oil will make you fat.**

Ask yourself every day, “What bugs am I feeding?”
